Dante's Inferno Badge

- Inspired by the iconic strip club, Dante's Inferno Room
- Features THREE circuit boards. The top two PCBs have a special two color solder mask
- 60 LEDs, powered by included CR123A battery
- 1x SAO v1.69 bis port

\$100

DC Furs 2025 Badge

- Grants access to DC Furs 2025 events and parties (2025.dcfurs.com)
- RP2040, MicroPython, LEDs, LoRa radio, and NFC mailbox EEPROM

\$150

Frog Star 2025 Badge by BigTaro

- Leap into the world of hacking with style, humor, and a whole lot of frog energy!
- Jump into a custom frog themed CTF to unlock epic GIFs, flashy bling, and secret surprises.
- Play a frog themed game built in
- Super bright round display to show off memes and bling!
- Supports 2 SAOs, fully programmable

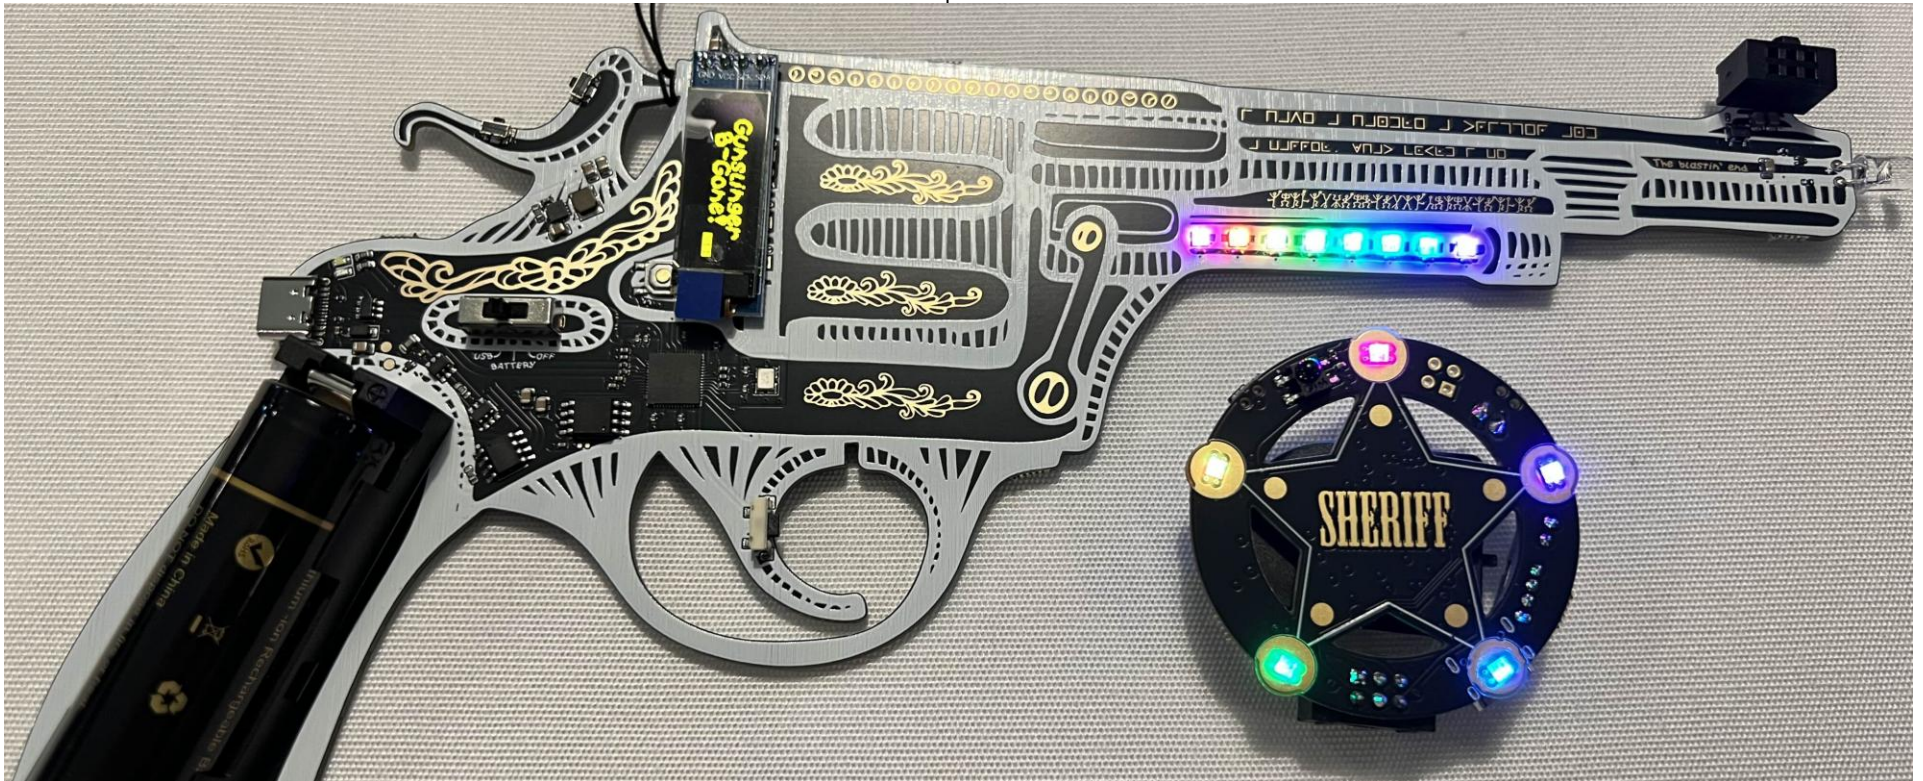

\$120

Gunslinger-B-Gone Badge

- Play “Laser Tag” with the Sheriff SAO, and make your friend’s badges light up!
- Point, shoot, and bam! Power down TVs with an IR blast.

- Solve CTF challenges to unlock extra features and tons of bling modes
- Play Drinking Roulette with your friends to see who takes the next shot!
- Fully programmable

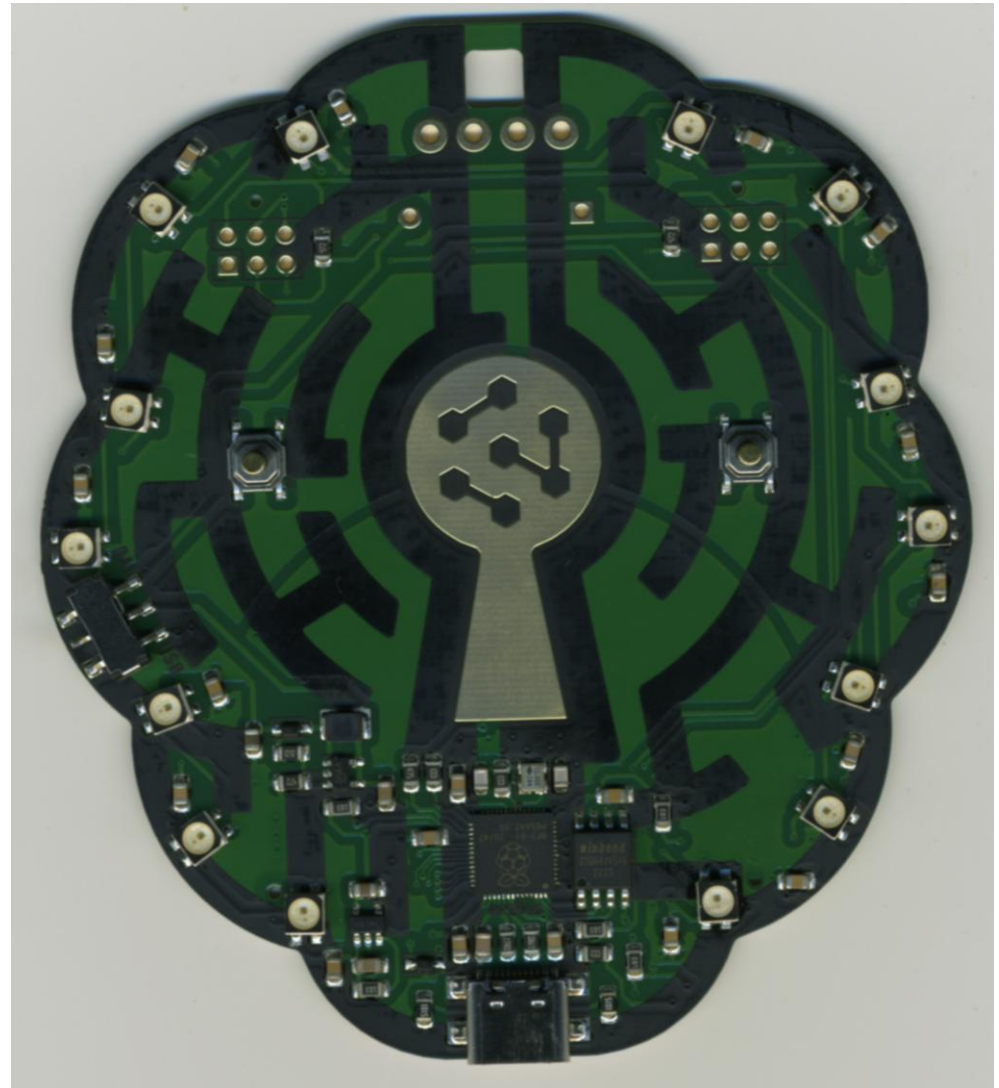

\$140

Hacker Mindset Badge

- USB kb emulation, USB mouse emulation, USB serial console, USB mass storage
- 56 LED patterns
- Powered by 2 AA batteries or USB
- RP2040 mcu / 8mb flash
- 14 RGB LEDs / 2 physical buttons / 1 capacitive touch
- 2 SAO v1.69 bis ports
- 4 expansion IO ports

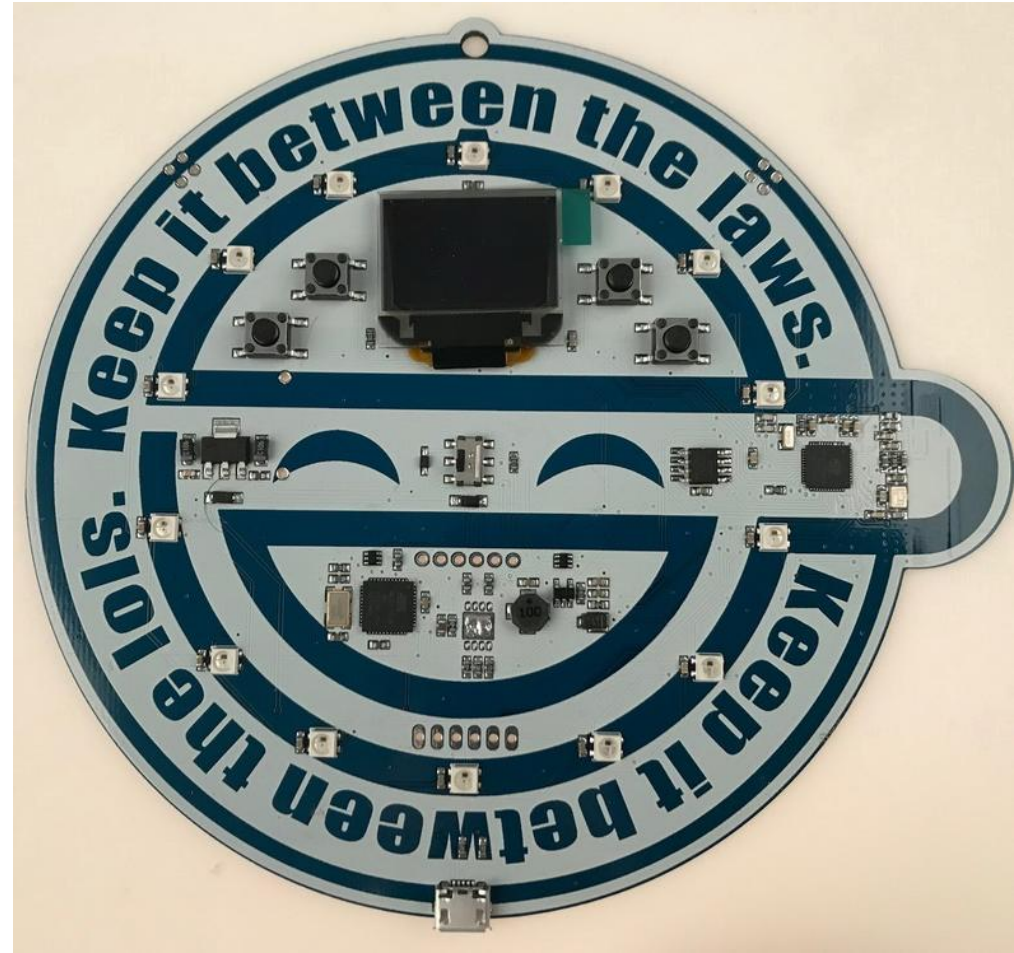

\$70

Hacker Warehouse Badge

- ESP32 + Atmel 32u4
- Modes: Wifi Ducky, Mouse Jiggler, TOTP such as Google Authenticator, and WiFi analysis tools, LED patterns.
- Full color OLED, 14 RGB LEDs.
- SAOv1 support

\$80

Masonic33 Badge

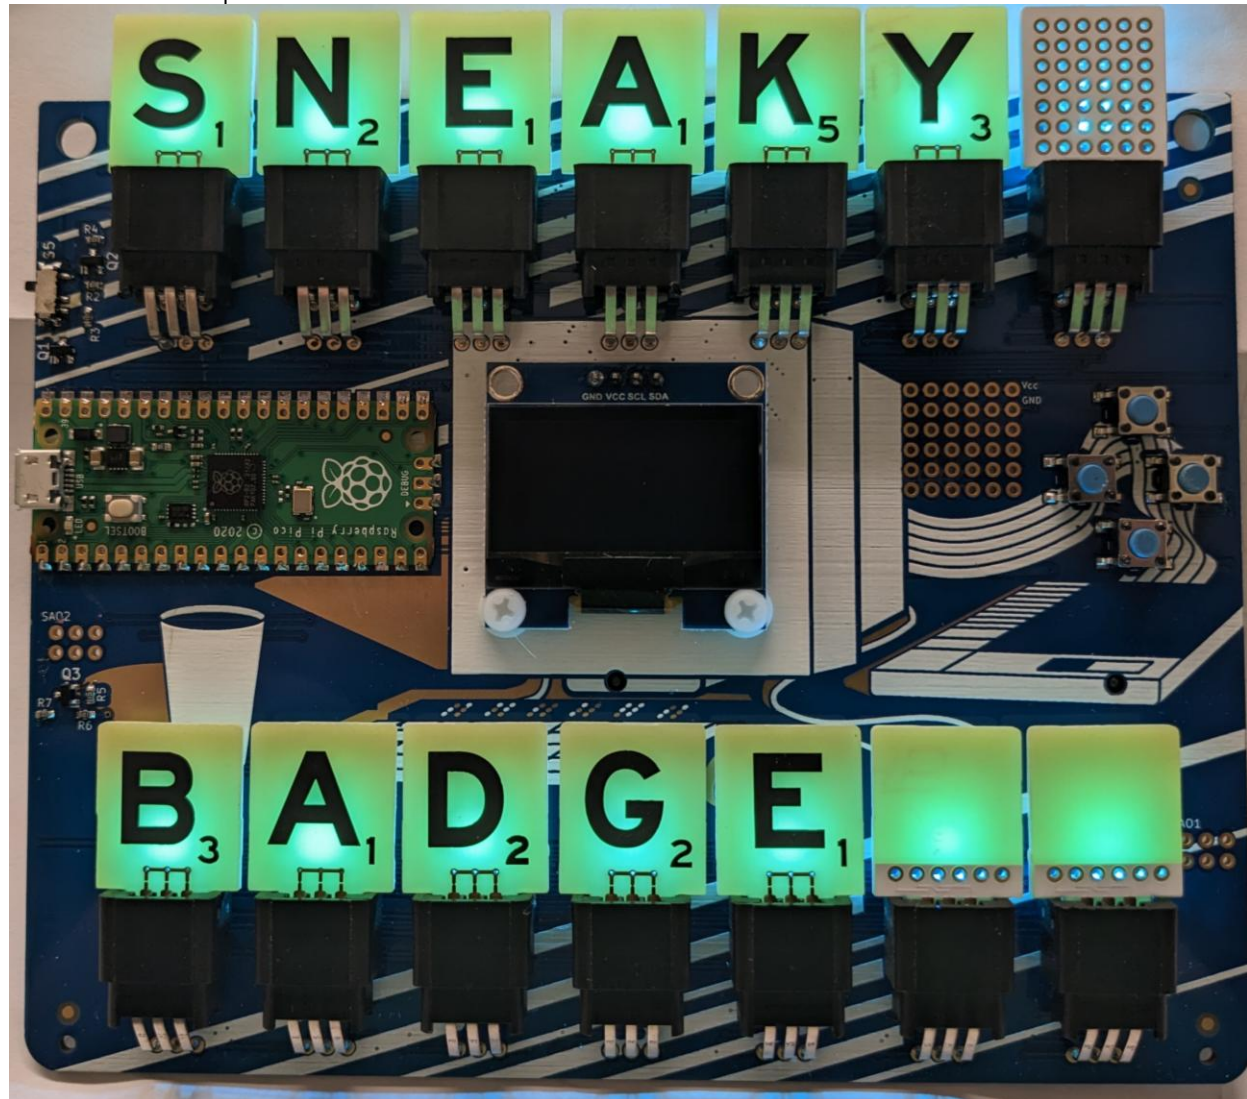

- A cryptic, interactive badge designed for puzzle lovers, hackers, and DEF CON attendees who crave a challenge cloaked in secrecy.
- The badge challenges users to manipulate analog inputs to unlock a hidden LED sequence — no screen, no clues, just intuition and initiation.
- Inspired by esoteric symbolism and the mystique of the 33rd degree
- Includes bonus merch: patch, themed lanyard, and 3 exclusive vinyl stickers

\$125

Sneaky Badge

- Homage to the Sneakers Film
- Raspberry Pi Pico, OLED Screen, Custom plug in scrabble-style letters
- 14 slots on the badge, 56 tiles included with badge
- Puzzle challenges in the firmware and word games.

\$80

Submarine 2025

Badge

- Navigate an underwater world packed with secrets and dozens of story-rich characters
- Solve CTF challenges to deliver packages to inhabitants of the DEF-SEA
- Tackle both hardware and software puzzles, including a few soldering challenges
- Super bright round display, over 6 buttons, and a SAO port!
- Fully programmable

\$160

Tipsy Badge

- Throw off your balance by hooking up the electrodes to your vestibular sensory system behind your ears. Control someone's left-to-right balance by using a low power signal and "steer" them as they walk around.
- Electrodes, headband, and lube included. Read safety warnings before use.
- Raspberry Pi 2040 based, color TFT display, 1x SAO 1.69bis port, 2mb flash with USB mass storage support, open source

\$100
